# SPECIFICATION

## Silicotungstic Acid AR

| Parameters | Specification |
|---|---|
| Appearance | White powder |
| Molecular Weight | 2878.16 g/mol |
| Boiling Point | 600 °C |
| Melting Point | 150 °C |
| Flash Point | Not determined |
| Purity | 99–99.9% |
| Refractive Index | Not available |
| Solubility | Soluble in water |
| Uses | Analytical reagent, catalyst, acid catalyst for organic synthesis |
