

## SPECIFICATION

### Allspice Oil

| Parameters       | Specification                                                    |
|------------------|------------------------------------------------------------------|
| Appearance       | Colorless to pale yellow liquid                                  |
| Molecular Weight | 222.3 g/mol                                                      |
| Boiling Point    | 210 °C                                                           |
| Melting Point    | -10 °C                                                           |
| Flash Point      | 58 °C                                                            |
| Purity           | 98–99%                                                           |
| Refractive Index | 1.51                                                             |
| Solubility       | Insoluble in water; soluble in ethanol and most organic solvents |
| Uses             | Flavoring agent; fragrance                                       |
