

## SPECIFICATION

### Ethyl Ethoxypropionate

| Parameters       | Specification                                     |
|------------------|---------------------------------------------------|
| Appearance       | Colorless liquid                                  |
| Molecular Weight | 146.18 g/mol                                      |
| Boiling Point    | 162 °C                                            |
| Melting Point    | -60 °C                                            |
| Flash Point      | 23 °C                                             |
| Purity           | 98–99%                                            |
| Refractive Index | 1.437                                             |
| Solubility       | Slightly soluble in water                         |
| Uses             | Solvent for coatings, paints, inks, and adhesives |
