

## SPECIFICATION

### Eucalyptus Hydrosol

| Parameters       | Specification                                       |
|------------------|-----------------------------------------------------|
| Appearance       | Colorless liquid                                    |
| Molecular Weight | 18.015 g/mol                                        |
| Boiling Point    | 100 °C                                              |
| Melting Point    | 0 °C                                                |
| Flash Point      | 100 °C                                              |
| Purity           | 99–100%                                             |
| Refractive Index | 1.333                                               |
| Solubility       | Soluble in water                                    |
| Uses             | Aromatherapy, cosmetics, and flavoring applications |
