

SPECIFICATION

Ferrous Sulfate 7-Hyd AR

Parameters	Specification
Appearance	Green crystals
Molecular Weight	278.01 g/mol
Boiling Point	480 °C
Melting Point	64 °C
Purity	98–99%
Refractive Index	1.49
Solubility	Soluble in water
Uses	Analytical reagent, used as an iron source in chemical analysis and in water treatment, commonly employed as a nutritional supplement in some formulations
