

## SPECIFICATION

### Karanal

| Parameters       | Specification                          |
|------------------|----------------------------------------|
| Appearance       | Colorless liquid                       |
| Molecular Weight | 178.24 g/mol                           |
| Boiling Point    | 210 °C                                 |
| Melting Point    | -5 °C                                  |
| Flash Point      | 68 °C                                  |
| Purity           | 98–99%                                 |
| Refractive Index | 1.462                                  |
| Solubility       | Soluble in ethanol; insoluble in water |
| Uses             | Fragrance ingredient                   |
