

## SPECIFICATION

### Lodhra Dry Extract

| Parameters       | Specification                                                |
|------------------|--------------------------------------------------------------|
| Appearance       | Brown powder                                                 |
| Molecular Weight | 0 g/mol                                                      |
| Boiling Point    | 0 °C                                                         |
| Melting Point    | 0 °C                                                         |
| Flash Point      | 0 °C                                                         |
| Purity           | 98–99%                                                       |
| Refractive Index | 1.5                                                          |
| Solubility       | Soluble in water                                             |
| Uses             | Traditional medicine applications;<br>Ayurvedic formulations |
