

## SPECIFICATION

### Marjoram Oil

| Parameters       | Specification                                                    |
|------------------|------------------------------------------------------------------|
| Appearance       | Pale yellow liquid                                               |
| Molecular Weight | 136.24 g/mol                                                     |
| Boiling Point    | 210 °C                                                           |
| Melting Point    | -20 °C                                                           |
| Flash Point      | 50 °C                                                            |
| Purity           | 99–100%                                                          |
| Refractive Index | 1.465                                                            |
| Solubility       | Insoluble in water, soluble in ethanol and most organic solvents |
| Uses             | Flavoring, fragrance, aromatherapy                               |
