

## SPECIFICATION

### Mint Terpene Oil

| Parameters       | Specification                          |
|------------------|----------------------------------------|
| Appearance       | Colorless to pale yellow liquid        |
| Molecular Weight | 150.0 g/mol                            |
| Boiling Point    | 190 °C                                 |
| Melting Point    | -10 °C                                 |
| Flash Point      | 40 °C                                  |
| Purity           | 98–99%                                 |
| Refractive Index | 1.467                                  |
| Solubility       | Insoluble in water; soluble in ethanol |
| Uses             | Flavoring, fragrance, essential oil    |
