

## SPECIFICATION

### NATURAL PATCHOULI RESINOID

| Parameters       | Specification                                            |
|------------------|----------------------------------------------------------|
| Appearance       | Brown to dark brown resin                                |
| Molecular Weight | 300 g/mol                                                |
| Boiling Point    | 230 °C                                                   |
| Melting Point    | 70 °C                                                    |
| Flash Point      | 90 °C                                                    |
| Purity           | 98–99%                                                   |
| Refractive Index | 1.52                                                     |
| Solubility       | Soluble in nonpolar organic solvents; insoluble in water |
| Uses             | Fragrance ingredient for perfumery                       |
