

## SPECIFICATION

### Organic Cypress Oil

| Parameters       | Specification                                                    |
|------------------|------------------------------------------------------------------|
| Appearance       | Clear, pale yellow liquid                                        |
| Molecular Weight | 156.0 g/mol                                                      |
| Boiling Point    | 185 °C                                                           |
| Melting Point    | -20 °C                                                           |
| Flash Point      | 52 °C                                                            |
| Purity           | 100–100%                                                         |
| Refractive Index | 1.473                                                            |
| Solubility       | Insoluble in water; soluble in ethanol and many organic solvents |
| Uses             | Fragrance and flavoring agent; cosmetics and personal care       |
