

## SPECIFICATION

### Reconstitute Geranium Oil

| Parameters       | Specification                                                           |
|------------------|-------------------------------------------------------------------------|
| Appearance       | Colorless to pale yellow liquid                                         |
| Molecular Weight | 140.0 g/mol                                                             |
| Boiling Point    | 210 °C                                                                  |
| Melting Point    | -15 °C                                                                  |
| Flash Point      | 60 °C                                                                   |
| Purity           | 98–99%                                                                  |
| Refractive Index | 1.466                                                                   |
| Solubility       | Slightly soluble in water; soluble in ethanol and most organic solvents |
| Uses             | Fragrance, perfumery, cosmetics, flavoring                              |
