

## SPECIFICATION

### Safed Musli Dry Extract

| Parameters       | Specification                                         |
|------------------|-------------------------------------------------------|
| Appearance       | Light brown powder                                    |
| Molecular Weight | 1000 g/mol                                            |
| Boiling Point    | 300 °C                                                |
| Melting Point    | 120 °C                                                |
| Flash Point      | 150 °C                                                |
| Purity           | 95–98%                                                |
| Refractive Index | 1.5                                                   |
| Solubility       | Soluble in water; soluble in ethanol                  |
| Uses             | Traditional medicine; dietary supplement; aphrodisiac |
