

## SPECIFICATION

### Selenium Yeast

| Parameters       | Specification                     |
|------------------|-----------------------------------|
| Appearance       | Off-white powder                  |
| Molecular Weight | 196.25 g/mol                      |
| Boiling Point    | 685 °C                            |
| Melting Point    | 221 °C                            |
| Flash Point      | 233 °C                            |
| Purity           | 98–99%                            |
| Solubility       | Insoluble in water                |
| Uses             | Dietary supplement; fortification |
