

## SPECIFICATION

### Tulsi Dry Extract

| Parameters       | Specification                                 |
|------------------|-----------------------------------------------|
| Appearance       | Yellow-brown powder                           |
| Molecular Weight | 500.0 g/mol                                   |
| Boiling Point    | 260 °C                                        |
| Melting Point    | 100 °C                                        |
| Flash Point      | 90 °C                                         |
| Purity           | 95–99%                                        |
| Refractive Index | 1.42                                          |
| Solubility       | Slightly soluble in water; soluble in ethanol |
| Uses             | Herbal supplement; cosmetic ingredient        |
