

## SPECIFICATION

### Claritone

| Parameters        | Specification                                                                                                                                        |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cas Number        | 74338-72-0                                                                                                                                           |
| Appearance        | Clear, Colorless Liquid                                                                                                                              |
| Uses              | Fragrance Ingredient; Perfumery Component In Shampoo, Soap, Body Lotion, Detergent                                                                   |
| Molecular Formula | $C_{12}H_{22}O$                                                                                                                                      |
| Molecular Weight  | 182.31 G/Mol                                                                                                                                         |
| Boiling Point     | 213–214 °C                                                                                                                                           |
| Flash Point       | 83 °C                                                                                                                                                |
| Solubility        | Slightly Soluble In Water; Soluble In Alcohols And Oils                                                                                              |
| Hazards           | Combustible Liquid; May Cause Skin Irritation (H315); May Be Harmful If Swallowed Or In Contact With Skin (H302, H312); Toxic To Aquatic Life (H411) |
| Purity            | 95-97%                                                                                                                                               |
| Refractive Index  | 1.444–1.450 @ 20 °C                                                                                                                                  |
