

## SPECIFICATION

### Fenchyl Acetate

| Parameters        | Specification                                                                                             |
|-------------------|-----------------------------------------------------------------------------------------------------------|
| Cas Number        | 13851-11-1                                                                                                |
| Appearance        | Colorless To Pale Yellow Clear Liquid                                                                     |
| Uses              | Common In Soaps, Shampoos, And Detergents For A Clean, Forest-Like Scent                                  |
| Molecular Formula | $C_{12}H_{20}O_2$                                                                                         |
| Molecular Weight  | 196.29 G/Mol                                                                                              |
| Boiling Point     | 220 °C                                                                                                    |
| Flash Point       | 76–84 °C                                                                                                  |
| Solubility        | Insoluble In Water , Soluble In Alcohol, Oils, And Organic Solvents                                       |
| Hazards           | H315: Causes Skin Irritation, H319: Causes Serious Eye Irritation, H335: May Cause Respiratory Irritation |
| Purity            | 96-98%                                                                                                    |
| Refractive Index  | 1.454–1.459                                                                                               |
