

## SPECIFICATION

### Dimethyl Benzyl Carbinyl Butyrate

| Parameters        | Specification                                                |
|-------------------|--------------------------------------------------------------|
| Cas Number        | 10094-34-5                                                   |
| Appearance        | Colorless To Pale Yellow Liquid                              |
| Uses              | Fragrance Ingredient In Rose, Peony, Chypre, Oriental Blends |
| Molecular Formula | C <sub>14</sub> H <sub>20</sub> O <sub>2</sub>               |
| Molecular Weight  | 220.31 G/Mol                                                 |
| Boiling Point     | 237–255 °C (Lit.)                                            |
| Flash Point       | 117 °C (Closed Cup)                                          |
| Solubility        | Insoluble In Water; Soluble In Alcohol                       |
| Hazards           | Toxic To Aquatic Life; Mild Skin Irritant                    |
| Purity            | 95-98%                                                       |
| Refractive Index  | 1.4839–1.4890                                                |
