## SPECIFICATION

### Pentadecanoic Acid

| Parameters        | Specification                                           |
|-------------------|---------------------------------------------------------|
| Cas Number        | 1002-84-2                                               |
| Appearance        | White To Off-White Powder Or Crystalline Flakes         |
| Uses              | Laboratory Chemical; Food And Drug Applications         |
| Molecular Formula | $C_{15}H_{30}O_2$                                       |
| Molecular Weight  | 242.4 G/Mol                                             |
| Boiling Point     | 257 °C                                                  |
| Flash Point       | 110 °C                                                  |
| Solubility        | Insoluble In Water; Soluble In Ethanol And Hot Methanol |
| Hazards           | Skin & Eye Irritation                                   |
| Purity            | 96-98%                                                  |
| Refractive Index  | 1.4292                                                  |
