

## SPECIFICATION

### Prenyl Ethyl Ether

| Parameters        | Specification                                        |
|-------------------|------------------------------------------------------|
| CAS Number        | 22094-00-4                                           |
| Appearance        | Colorless liquid                                     |
| Uses              | Flavor & fragrance (fruity, floral, green notes)     |
| Molecular Formula | C <sub>7</sub> H <sub>12</sub> O                     |
| Molecular Weight  | 112 g/mol                                            |
| Boiling Point     | 150 °C                                               |
| Flash Point       | 40 °C                                                |
| Solubility        | Insoluble in water; soluble in ethanol, oils         |
| Hazards           | Irritant; combustible; may cause skin/eye irritation |
| Purity            | 93-95%                                               |
| Refractive Index  | 1.42–1.44                                            |
