

## SPECIFICATION

### RhovaniI

| Parameters        | Specification                                                             |
|-------------------|---------------------------------------------------------------------------|
| Appearance        | White to off-white crystalline powder                                     |
| Molecular Formula | C <sub>8</sub> H <sub>8</sub> O <sub>3</sub>                              |
| Molecular Weight  | 152.15 g/mol                                                              |
| Boiling Point     | 285 °C                                                                    |
| Flash Point       | 147 °C                                                                    |
| Purity            | 96-98%                                                                    |
| Solubility        | Slightly soluble in water; soluble in ethanol, glycerin, propylene glycol |
| Uses              | Flavor, fragrance, cosmetics                                              |
