

## SPECIFICATION

### Lutensol XL 80

| Parameters        | Specification                                                                                  |
|-------------------|------------------------------------------------------------------------------------------------|
| Appearance        | Cloudy, slightly turbid liquid                                                                 |
| Molecular Formula | C <sub>10</sub> H <sub>21</sub> (CH <sub>2</sub> CH <sub>2</sub> O) <sub>8</sub> OH            |
| Molecular Weight  | 500–600 g/mol                                                                                  |
| Flash Point       | >100 °C                                                                                        |
| Purity            | 96-98%                                                                                         |
| Refractive Index  | 1.45–1.47                                                                                      |
| Solubility        | Freely soluble in water; soluble in alcohols; dispersible in organic systems                   |
| Uses              | Detergents, household cleaners, industrial & institutional cleaning, agrochemical formulations |
