

## SPECIFICATION

### Macrogolglycerol Ricinoleate

| Parameters       | Specification                                                                                   |
|------------------|-------------------------------------------------------------------------------------------------|
| CAS Number       | 61791-12-6                                                                                      |
| Appearance       | Pale yellow, viscous liquid                                                                     |
| Molecular Weight | 1300 g/mol                                                                                      |
| Boiling Point    | 300 °C                                                                                          |
| Flash Point      | 210 °C                                                                                          |
| Purity           | 98–99%                                                                                          |
| Refractive Index | 1.462                                                                                           |
| Solubility       | Slightly soluble in water; soluble in ethanol and oils                                          |
| Uses             | Emulsifier and surfactant used in cosmetics, personal care products, and some food formulations |
