

## SPECIFICATION

### MCT Oil

| Parameters       | Specification                                                                        |
|------------------|--------------------------------------------------------------------------------------|
| Appearance       | Clear, colorless liquid                                                              |
| Molecular Weight | 520 g/mol                                                                            |
| Boiling Point    | 320 °C                                                                               |
| Flash Point      | 170 °C                                                                               |
| Purity           | 98–99%                                                                               |
| Refractive Index | 1.39                                                                                 |
| Solubility       | Insoluble in water; soluble in nonpolar solvents (chloroform, diethyl ether, hexane) |
| Uses             | Dietary supplement, cooking ingredient, cosmetic formulation                         |
