

## SPECIFICATION

### Potassium Thioglycolate

| Parameters        | Specification                                                 |
|-------------------|---------------------------------------------------------------|
| CAS Number        | 34452-51-2                                                    |
| Appearance        | White crystalline solid                                       |
| Molecular Formula | C <sub>2</sub> H <sub>3</sub> KO <sub>2</sub> S               |
| Molecular Weight  | 134.21 g/mol                                                  |
| Purity            | 96-98%                                                        |
| Solubility        | Soluble in water                                              |
| Uses              | Depilatory creams, hair perming/straightening, reducing agent |
