

## SPECIFICATION

### Vinyl Bromide

| Parameters        | Specification                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------|
| CAS Number        | 593-60-2                                                                                         |
| Appearance        | Colorless gas                                                                                    |
| Molecular Formula | C <sub>2</sub> H <sub>3</sub> Br                                                                 |
| Molecular Weight  | 106.95 g/mol                                                                                     |
| Boiling Point     | -22.0 °C                                                                                         |
| Flash Point       | -60.0 °C                                                                                         |
| Purity            | 98–99%                                                                                           |
| Refractive Index  | 1.515                                                                                            |
| Solubility        | Slightly soluble in water; soluble in organic solvents                                           |
| Uses              | Monomer for polymer synthesis; intermediate in organic synthesis; used in chemical manufacturing |
