

## SPECIFICATION

### Strontium Chromate

| Parameters       | Specification                                                 |
|------------------|---------------------------------------------------------------|
| CAS Number       | 2151068                                                       |
| Appearance       | Bright yellow powder                                          |
| Molecular Weight | 203.62 g/mol                                                  |
| Boiling Point    | 1600 °C                                                       |
| Melting Point    | 1200 °C                                                       |
| Flash Point      | 1000 °C                                                       |
| Purity           | 98–99%                                                        |
| Refractive Index | 1.92                                                          |
| Solubility       | Insoluble in water; slightly soluble in acids                 |
| Uses             | Pigment in coatings; corrosion inhibition; laboratory reagent |
