

## SPECIFICATION

### Amaltas Dry Extract

| Parameters       | Specification                                                                              |
|------------------|--------------------------------------------------------------------------------------------|
| Appearance       | Brown-yellow powder                                                                        |
| Molecular Weight | 540.00 g/mol                                                                               |
| Boiling Point    | 280 °C                                                                                     |
| Melting Point    | 110 °C                                                                                     |
| Flash Point      | 100 °C                                                                                     |
| Purity           | 98–99%                                                                                     |
| Refractive Index | 1.52                                                                                       |
| Solubility       | Slightly soluble in water; soluble in ethanol                                              |
| Uses             | Herbal supplement; traditional medicine; used as constituent in nutraceutical formulations |
