

## SPECIFICATION

### Boisambrene Forte

| Parameters        | Specification                          |
|-------------------|--|
| CAS Number        | 58567-11-6                             |
| Appearance        | Colorless to pale yellow liquid        |
| Molecular Formula | C15H30O2                               |
| Molecular Weight  | 280.40 g/mol                           |
| Boiling Point     | 230 °C                                 |
| Melting Point     | -20 °C                                 |
| Flash Point       | 90 °C                                  |
| Purity            | 98-99%                                 |
| Refractive Index  | 1.48                                   |
| Solubility        | Soluble in ethanol; insoluble in water |
| Uses              | Fragrance ingredient for perfumery     |
