

## SPECIFICATION

### Galbanum Rectified Oil

| Parameters       | Specification                                                         |
|------------------|-----------------------------------------------------------------------|
| Appearance       | Pale yellow liquid                                                    |
| Molecular Weight | 164.0 g/mol                                                           |
| Boiling Point    | 170 °C                                                                |
| Melting Point    | -10 °C                                                                |
| Flash Point      | 52 °C                                                                 |
| Purity           | 100-100%                                                              |
| Refractive Index | 1.470                                                                 |
| Solubility       | In water: Insoluble; soluble in ethanol and most organic solvents     |
| Uses             | Fragrance and perfumery ingredient; flavor and fragrance applications |
