

## SPECIFICATION

### Isomenthone 90%

| Parameters       | Specification                                          |
|------------------|--------------------------------------------------------|
| Appearance       | Colorless liquid                                       |
| Molecular Weight | 154.25 g/mol                                           |
| Boiling Point    | 214 °C                                                 |
| Melting Point    | -16 °C                                                 |
| Flash Point      | 40 °C                                                  |
| Purity           | 90-90%                                                 |
| Refractive Index | 1.47                                                   |
| Solubility       | Insoluble in water                                     |
| Uses             | Fragrance ingredient;<br>flavor/fragrance applications |
