

## SPECIFICATION

### Methomyl 40% SP

| Parameters       | Specification                      |
|------------------|------------------------------------|
| Appearance       | Brown suspension                   |
| Molecular Weight | 198.2 g/mol                        |
| Boiling Point    | 176 °C                             |
| Melting Point    | 78 °C                              |
| Flash Point      | 68 °C                              |
| Purity           | 40–40%                             |
| Refractive Index | 1.47                               |
| Solubility       | Soluble in water                   |
| Uses             | Insecticide for agricultural crops |
