

## SPECIFICATION

### Organic Mahua Oil

| Parameters       | Specification                                   |
|------------------|-------------------------------------------------|
| Appearance       | Golden-yellow viscous liquid                    |
| Molecular Weight | 872.0 g/mol                                     |
| Boiling Point    | 320 °C                                          |
| Melting Point    | -6 °C                                           |
| Flash Point      | 210 °C                                          |
| Purity           | 98–99%                                          |
| Refractive Index | 1.462                                           |
| Solubility       | Insoluble in water soluble in nonpolar solvents |
| Uses             | Cosmetics, soap making, cooking oil             |
