

## SPECIFICATION

### Pumpkin Seed Oil

| Parameters       | Specification                                   |
|------------------|-------------------------------------------------|
| Appearance       | Golden-yellow oil                               |
| Molecular Weight | 860.0 g/mol                                     |
| Boiling Point    | 360 °C                                          |
| Melting Point    | -20 °C                                          |
| Flash Point      | 250 °C                                          |
| Purity           | 98–99%                                          |
| Refractive Index | 1.462                                           |
| Solubility       | Insoluble in water; soluble in organic solvents |
| Uses             | Culinary oil; carrier oil in cosmetics          |
