

SPECIFICATION

Sodium Bisulphite Solution 38%

Parameters	Specification
Appearance	Colorless, clear liquid
Molecular Weight	104.07 g/mol
Boiling Point	100 °C
Melting Point	-5 °C
Flash Point	Not flammable
Purity	38–38%
Refractive Index	1.360
Solubility	Soluble in water
Uses	Antioxidant and reducing agent, preservative and dechlorinating agent, used in food and beverage industries
